

Product Information Requirements for Mechanical Level Switches

Product Series	Product Type	Required Information
300	Top Mount Float Units	Insertion Depth
705 thru 708 731 thru 737 750 thru 757	Top Mount Displacer Units	Operating Specific Gravity of Process Liquid
902 thru 904	Flow Switches	Nozzle Length of Process Piping
1550	Top Mount Float Units	Insertion Depth
Accessory Option	Accessory Descriptions	Required Information
CZ	ANSI B31.3 Certification	Process Fluid Class (see catalog for details)
EC	Extra Chamber Connection	Size, type and location on chamber
ID	Interface Detection	Specific Gravity of Upper and Lower Process Fluids
SC	Special Calibration	Set Point (rising or falling) and Operating Specific Gravity of Process Fluid
SD	Special Dimensions	Details of the Chamber Dimensional Changes
SL	Special Cable Length	Length of Cable
TF	Tandem Floats	Operating Specific Gravity of Process Fluid and Set Points (rising/rising, falling/falling, or rising/falling)
